## A world of difference

If you're looking for perimeter fencing solutions, we know you'll appreciate the difference too.

### **40 years of fencing know-how**

For over forty years, we've been on a mission to create the most effective perimeter security mesh fencing available. In our drive for quality, we partner innovation and supreme performance with a level of customer service that sets us apart. The result, according to CLD customers across the world, is a different kind of experience from a different kind of company.

### **The CLD difference**

Is what makes CLD the first choice for mesh fencing amongst architects, specifiers and contractors in many countries across the world.

### **Inspired designs**

Design excellence has always been at the heart of what we do. We invest heavily in product development to deliver inspired innovations that earn best of premier status. These are guaranteed designs with longevity built-in so you can rely on the durability and cost-effectiveness of your perimeter security project.

**Innovation and supreme performance with a level of customer service that sets us apart**

*"...now we can expect good quality products, excellent service and competitive pricing"*

# Attention to detail

down to the final fixing

## Peace of mind for every situation

CLD mesh fencing systems take care of any situation and any level of risk. We protect people and property with appropriate fencing systems that tick every box on your list whether you're creating a primary school or securing a sensitive site.

## Exceptional customer service

We're renowned for start to finish quality. We back exceptional products with exceptional customer support. We give you expert help every step of the way from initial product guidance to skilled installation by our own CLD approved contractors.

**We're renowned for start to finish quality**

*“...thanks for your quick response...”*

Design excellence has always been at the heart of what we do.

## A different kind of support

Every project is different. Security requirements vary widely from site to site and every situation brings its own, often unique, challenges.

Finding the experience and expertise to meet these challenges is not always easy. Perimeter security is a complex science and a location often faces risks that are not obvious to untrained eyes.

### Design innovation

At CLD, we have decades of fencing experience and a deep understanding of perimeter security issues. Our technical experts bring together ingenious designs and clever thinking to create exceptionally secure fencing systems appropriate to any location and any risk level.

### Technical expertise

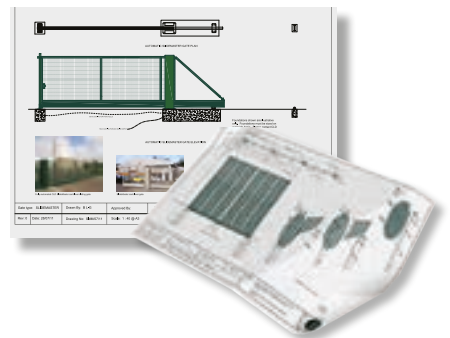

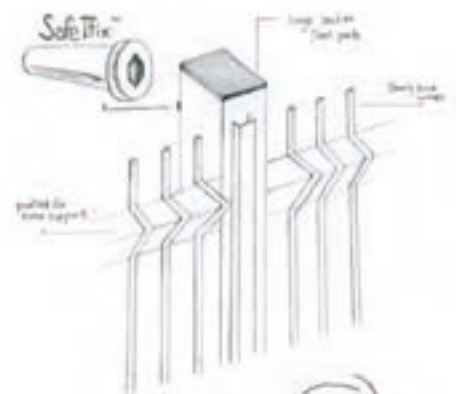

The ingenuity of our technical team is available from the start. They guide you through security issues from the design stage of your project to completion.

### FenceCAD

Log in to FenceCAD on our website and you have a complete and continually updated online resource at your fingertips. Download CAD drawings, pdfs, data sheets, specifications and browse our full catalogue.

**Decades of fencing experience and a deep understanding of perimeter security**

*...technical advice from your team is excellent...*

## BIM Partners

### Revolutionising projects with Building Information Modelling (BIM)

3D Building Information Modelling is set to transform the way buildings are constructed. CLD is one of the first companies to bring you BIM drawings to enable you to take detail planning to a totally new level streamlining your project and reducing your costs.

High security when it really matters –  
the Ultimate Extra system at a large  
international airport

**Airports to Zoos**

CLD’s Fencing is integral to security systems at key locations all over the UK and beyond. Our team has designed and supplied CLD perimeter fencing at airports, schools, retail premises, offices, water treatment plants, distribution centres, tram stations and zoos.

Whatever the project, we have the solution.

“Your experience proved invaluable on our project...”

Experience and expertise to meet your challenges

“...superb service all round...”

## Understanding threats Creating solutions

Every security situation is different. CLD's bespoke solutions emerge when the best expertise is partnered with the best products.

We identify possibilities you may not have thought of and envisage benefits that go beyond your expectations.

01

### Aviation

*Challenge:* maintaining ongoing 24 hour security to protect airports from external threats.

*Solution:* **CLD Product - Securus SR1 / Ultimate Extra SR1**

Gives a clear and strong statement for essential security.

02

### Healthcare

*Challenge:* preventing access by unauthorized personnel and keeping patients safely within the boundary when necessary.

*Solution:* **CLD Product - Dulok-8 SR1**

For aesthetically pleasing results with secure boundary protection to Secured by Design.

03

### Commercial

*Challenge:* creating strong boundaries to deter intruders and protect against theft and vandalism.

*Solution:* **CLD Product - Securus Profiled**

For anti-cut through mesh construction, designed to delay intruder progress. Anti-intruder top can be retro-fitted.

06

### Infrastructure

*Challenge:* preventing the potentially disastrous consequences of metal theft.

*Solution:* **CLD Product - Ultimate Extra SR1**

Optimum anti-climb design with excellent security properties, available as Secured by Design with anti-intruder toppings.

07

### Utility

*Challenge:* Preventing theft and damage at essential utilities.

*Solution:* **CLD Product - Securus SR2**

For maximum security with delay time. Hard to scale anti-cut through design available with optional anti-intruder toppings.

06

03

04

### Emergency Services

*Challenge:* Protecting the community from threats and the asset from attacks.

*Solution:* **CLD Product - Multiplus**

For a strong boundary that offers protection with good visibility for surveillance.

04

02

05

05

### Education

*Challenge:* Keeping children in school grounds and keeping intruders out.

*Solution:* **CLD Product - Ultimate / Dulok Decorative**

For attractive fencing that gives clear visibility and good security properties.

08

### Amenities

*Challenge:* Keeping children within the safe boundaries of a play area.

*Solution:* **CLD Product - Rotop**

For security with appealing looks and child-friendly spike-free design.

# Making the grade

## Approved contractors quality every step of the way

With expert installation, CLD Fencing Systems deliver industry-leading performance and total peace of mind.

### CLD Approved Contractors

Exceptional products are just part of the CLD story. The best products demand the best installation skills. That's why we spend so much time seeking out the right installation teams to install our fencing systems.

CLD Approved Contractors are exceptional! Only the best installers receive our approved status. Every one is carefully chosen by us after extensive checks covering every aspect of their business and installation service.

### The best in the business

These are highly capable installers who pride themselves on professionalism, time-served skills and attention to detail.

### Expert installation

Installation is a part of the process we take very seriously. We call on our Approved Contractors to ensure correct installation of CLD systems. Our technical support is available to installers throughout the process. We share our product knowledge with them and answer their questions as they may arise during fitting.

Superior installation services  
for superior products

**Nationwide network**

CLD operate on a national scale with approved contractors available to install across the UK. All CLD approved contractors have full product knowledge and are updated with new developments as required.

## Longevity assured

CLD quality is guaranteed. Every product in our range comes with a 15 year guarantee for long-term peace of mind.

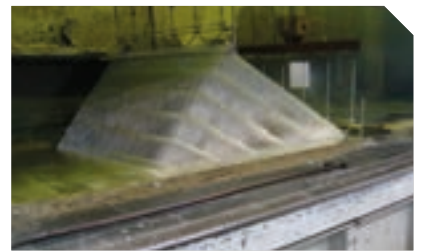

You want to know the fencing system you choose will protect your location long into the future. We're so confident in our fencing systems that we issue every product with a 15 year guarantee.

### Stringent standards

Longevity is built-in to our designs. Our systems are galvanized to BS EN ISO 1461 and polyester powder-coated to BS EN 13438 where appropriate. To ensure the consistency and reliability of our products, our ISO 9001 management system measures, develops and controls every part of our process.

### Protecting your location long into the future

*...this now ensures the consistency and reliability of the products,...*

### Maintenance free

Our fencing systems are maintenance-free. Should a panel be damaged, it can be removed and replaced quickly and easily.

When it comes to perimeter protection, there's simply no better choice than CLD.

# Experience and knowledge brought together

Our decades of experience in the security fencing industry have brought us into contact with professional companies.

Of the numerous professionals we've met from related industries, a few stand-out companies have caught our attention. These are companies that reach the highest standards of excellence as well as those offering specialist expertise in specific sectors.

With our Professional Consultancy Partnering service, we leverage these connections on your behalf and blend our skills with theirs to give you 'best of the best' quality tailored to the needs of your project.

PCP gives you access to a select range of carefully qualified experts so you can be assured of absolute quality as well as equipment that is completely compatible with CLD products.
