Compatibility Matrix for Vanity Basins and Furniture

The basin is the heart of the bathroom, so it's important to choose one that's both beautiful and practical. You should think about how you want the basin to look and how you'll use it. Bathroom furniture, on the other hand, gives the room its character and helps keep things organised. The best part is that you can mix and match different basins and furniture to create your ideal bathroom. There are many different combinations to choose from.

1. Vanity basins and furniture with a projection of 50cm	6
2. Vanity basins and furniture with a projection of 44cm	12
3. Vanity basins and furniture with a projection of 38cm	16
